RE: **EM-SPRINT-135-180806**– Sprint notice of intent to modify an existing telecommunications facility located at 652 Glenbrook Road, Stamford, Connecticut.

Dear Mr. Bailey:

The Connecticut Siting Council (Council) received a notice of intent to modify the above-referenced facility on August 6, 2018.

According to Section 16-50j-71 of the Regulations of Connecticut State Agencies, "...any modification, as defined in Section 16-50j-2a of the Regulations of Connecticut State Agencies, to an existing tower site, except as specified in Sections 16-50j-72 and 16-50j-88 of the Regulations of Connecticut State Agencies, may have a substantial adverse environmental effect."

Staff has reviewed this exempt modification request for completeness and has identified a deficiency in the Structural Analysis Report provided with the above filing. The above-referenced exempt modification filing includes a Structural Analysis Report dated July 10, 2018 which does not show a designed appurtenance loading for the water tower and therefore does not indicate that all previously approved Exempt Modifications for this facility have been considered in this analysis.

Therefore, the exempt modification request is incomplete at this time. The Council recommends that Charles Cherundolo Consulting provide a Structural Analysis Report that accounts for all existing and proposed equipment at the facility, and any necessary structural modifications, on or before September 14, 2018. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to September 14, 2018.

This notice of incompleteness shall have the effect of tolling the Federal Communications Commission (FCC) 60-day timeframe in accordance with Paragraph 217 of the FCC Wireless Infrastructure Report and Order issued on October 21, 2014 (FCC 14-153).

Thank you for your attention to this matter. Should you have any questions, please feel free to contact me at 860-827-2951.

Sincerely,

Melanie Bachman
